AstraZeneca UK takes great pride in operating in a highly ethical and professional manner and wishes to continue to fully comply with ABPI and the IPHA Code of Practice both in spirit and in terms of written requirements. One of these requirements is for all industry members to have a formal working policy in place for sponsored meetings. AstraZeneca's policy does not allow for partners or spouses, who are not delegates in their own right, to participate in congress associated hospitality. This includes extended dinner invitations. We trust you will respect all our efforts to comply with company policy. The opinions expressed by the presenters are not necessarily those of AstraZeneca UK Ltd.
